

MEDIA ADVISORY:

Brawley residents are encouraged to come forward by April 16th, 2018 and state their concerns during the formal public comment period

BRAWLEY, California – The City of Brawley is encouraging its residents and stakeholders to submit written comments, following the formal complaint filed by the City of El Centro to the Federal Communications Commission (FCC) against Charter Communications, also known as Spectrum.

The City of El Centro complaint declares that because Spectrum failed to properly notify the grantor before removing channels, local subscribers are due rebates.

“Brawley residents are increasingly alarmed at Spectrum’s lack of urgency as it relates to resolution. Local customers are clearly the losers,” stated Mayor George A. Nava.

The FCC’s public comment period is open and the City of Brawley will serve as a collection hub for Brawley comments. Please send an email or letter to the attention of Alma Benavides, City Clerk, at abenavides@brawley-ca.gov or 383 Main Street, Brawley, CA 92227 by no later than April 16, 2018.

Should you have any questions, please contact the Office of the City Clerk at 760-351-3080.
